

Melbourne's fire door specialists.

Complete supply and install of fire-rated doorsets — veneer or metal-clad, single or double — with the exit systems, closers, drop seals and compliant hardware to match the rating. The door, the new jamb, the hardware and the compliance, handled by one team.

Fire-rated door · vision panel & exit signage · supplied and installed by Doors Replaced

COMPLETE FIRE DOORSETS

Supplied, installed, *signed off.*

No juggling trades and no half-jobs. We handle the whole doorset end to end — and hand you the compliance paperwork at the finish.

01

Complete supply & install

We supply the fire-rated door and the new jamb, fit the hardware, and install the full set. One point of contact from first quote to final sign-off — no chasing separate trades.

02

Fire compliance, sorted

Doorsets built and fitted to the required fire rating, with compliance documentation supplied so the job passes inspection the first time. The paperwork is part of the job.

03

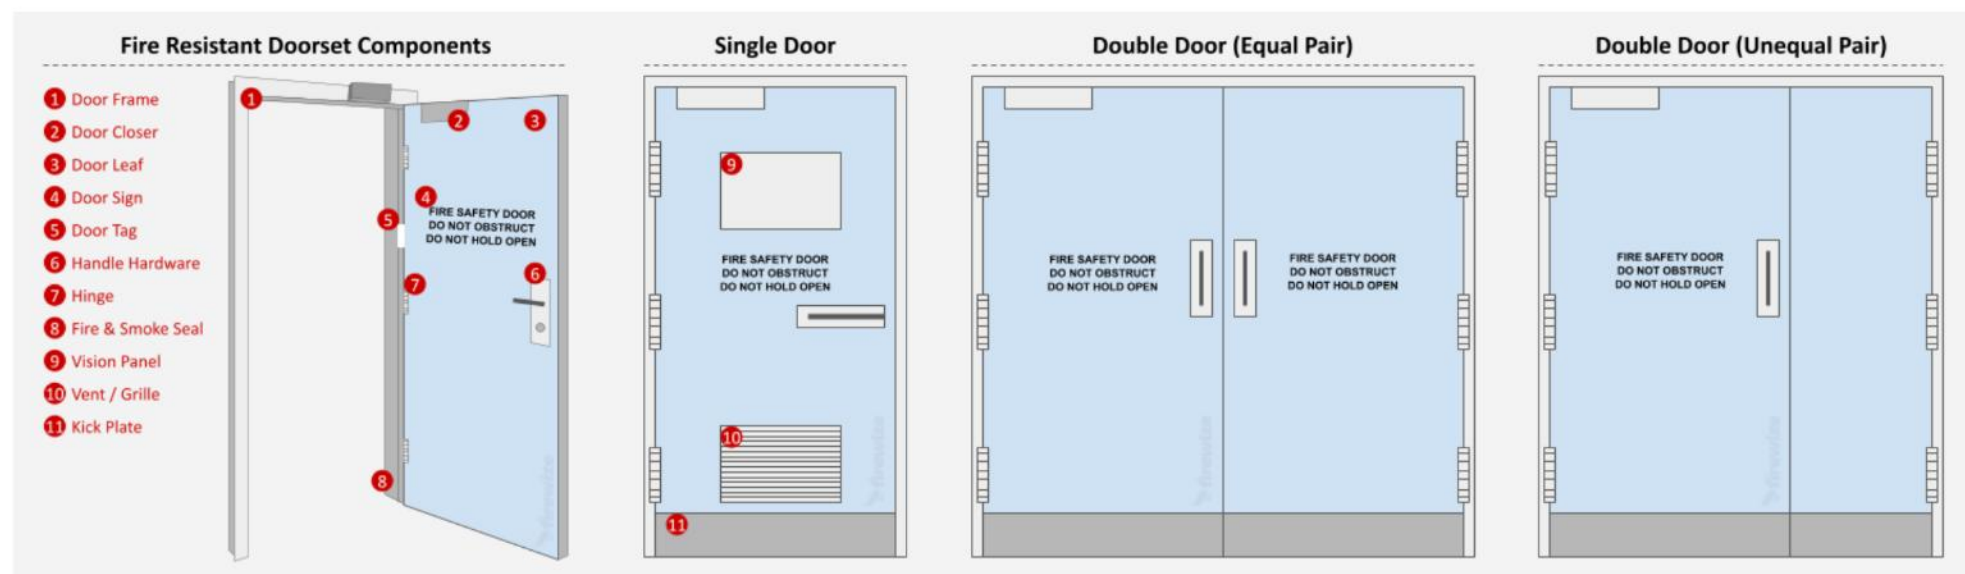

Veneer or metal-clad

We build the leaf to suit the opening and the rating — fire-compliant timber veneer or metal-clad, single, double or unequal pairs. The finish the space needs, the spec the job demands.

WHATEVER THE SPEC CALLS FOR

The whole doorset, *to spec.*

A fire door is only compliant as a complete set. We supply and fit every part of it — frame, closer, leaf, signage and tag, fire & smoke seals, drop seals, vision panel, vent or grille, kick plate and exit hardware — in single, equal-pair and unequal-pair configurations.

A complete fire-rated doorset — every component fitted to the required rating, in single, equal-pair and unequal-pair configurations.

SETS WE INSTALL

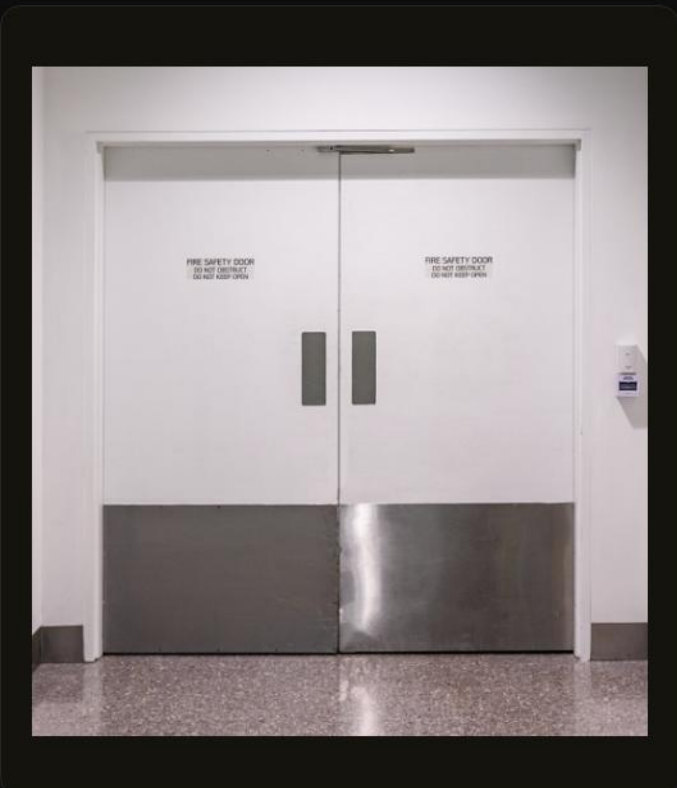

From veneer *to steel.*

Timber-veneer fire doors · vision panels & kick plates

Steel fire-rated exit doors · push-bar exit hardware

Metal-clad commercial set · stainless kick plates

When the door *has to pass,* this is what we do.

Over 1,000 doors installed across Melbourne. Fire-rated sets go in to the same standard as our premium residential work — same crew, same finish, same warranty.

BUILT TO PASS.

Send the report or photos — fire door quote back within 24 hours, compliance documentation included.
