GETTING A PRICE

How to order

The more you send us, the closer we can price it. Most jobs we can price from your photos and measurements, without a site visit.

1

Send a photo of your door

Stand square-on to the door, in good light, and take a photo of the whole door and frame. A photo from inside helps too.

2

Send your measurements

Measure the door itself: width, height and thickness. If you can, measure the frame opening as well.

3

Pick your door

Choose a door from this catalogue (StormBloc, Architectural or MR Range) and tell us the name or code. For StormBloc, pick your COLORBOND® colour.

4

We price it

We work out your price from what you've sent. The more detail you give us, the closer that price will be to the final figure.

5

Site visit to confirm

We come out to confirm the final measurements and fine-tune the details before your door goes into production.

Send us your photo and measurements.
